Online Doctor Channeling System – Group No:58

Introduction

This is a platform between doctors and patients. Our system consists of three user types as admin, doctor and patient. Anyone can log into the system as any of above user and can perform difference types of tasks.

Admin

- Admin can add admins, doctors and patients to the system.
- Can edit information of doctors and patients.
- Can delete doctors, admins and patients from the system.

Patient

- Can register into the system by themselves.
- Have the facility to choose a doctor after logging into the system by their account.
- Can able to channel the doctor by a simple procedure.

Doctor

- Can register into the system by themselves.
- When a doctor log into the system by their account, he/she can be able to see the channelings made by patients in the relevant doctor's page.
